

Dear Hoosier Academy Math Lab Virtual Students,

First of all I want to take a moment and welcome you to Hoosier Academies. If this is your first semester, you are in for a year of excitement. If you are a returning family, be prepared for some fantastic new adventures! As your math teacher I will be here to help guide you through these upcoming adventures.

My name is Lyssa Baker and this semester I will be teaching Math lab. I have spent the past year with Hoosier Academy as a high school virtual math teacher. Prior to that I worked with the middle school students in Indianapolis. I graduated from Olivet Nazarene University in Kankakee, Illinois in 2010. Upon graduating I returned home to Cloverdale, Indiana. I currently live there with my family! I have two younger brothers who are 18 and 14, as well as my dog, River. I am currently engaged and getting married in August.

As your math teacher I look forward to getting to know each of you! I want to help you succeed on your journey through high school and beyond. I believe that a large part of success will be learning how to organize yourself and your school work. Many of you have already started looking at those aspects of your learning. Be sure to check the announcements (in kmail and on <http://bakersmathmania.weebly.com/> each week) to see what needs to be completed for the week. I can't wait to get to know you and your families. Please feel free to contact me with any questions you may have via kmail or phone.
