

# Math Lab Syllabus

Instructor: Miss. Baker

Web Page: <http://bakersmathmania.weebly.com/>

Office Hours: 10-11\* Everyday [Click Here](#)

Class Connect Time: Current Week's Topics 3-4\* Daily

Review of Last Week's Topics 12-1\* Monday, Wednesday and Thursday

New Student Session 12-1\* Tuesday

\*All times are Eastern

Math Lab is designed to help students grow in their mathematical abilities and succeed in passing the Algebra End-of-Course Assessment. This is a one-credit course and must be taken seriously. Not working in this course will result in a F, and will affect your GPA.

## Who is in the Course:

If you do not fit in one of these categories you should contact me and your counselor. The following categories of students will gain the most from Math Lab.

- Pre-Algebra Student
- Algebra 1 Student who is looking for extra help
- Algebra 1 Student who is re-taking Algebra

## How this Course is Different:

Math and English Lab are **NOT** located in the LMS. When clicking "Go to course" you will not see them as options. All communication for Math Lab will be through kmail. Make sure you check your kmail multiple times a day for assignments, classroom invitations, and general information. You can also go to <http://bakersmathmania.weebly.com/> for the same information.

## Grades

Grades for the Math Lab Course will be based on the following:

- Class Attendance (50%)
- Homework Assignments (40%)
- Weekly Calendar (10%)

## Course Assignments

**All assignments must be completed in order to get credit for the assignment. In other words, you will either get 100% or 0% for every assignment.**

Class Attendance: Coming to class is the main way for you to acquire the skills you need to pass the Algebra ECA and other math courses. You also get to talk with other students and collaborate together.

If you are not able to attend class you can watch the recordings located in your class connect schedule. At the end of each session there are questions. If you complete these problems (with work) and email them to me I will give you credit for the class session.

Homework: The homework assignments will be on **Study Island**. There will be several throughout the semester.

Study Island: Is a requirement of all Hoosier Academy Students and in Math Lab they will get credit for completing the assignments. Please view the "How to Use Study Island" document for more information.

Weekly Calendars: Each week you will need to send me a calendar or "To Do List" for the week. This should be for all of your courses not just Math. It has been proven that virtual students who are organized and plan out their weeks will do better. I go over how to make this calendar the first week of the semester and every Tuesday at 12pm\*. This website has free printable planners
